Love, Honor and Loyalty

My Brothers and Sisters, one of the hardest things for our brethren to embrace is Love. Most of those in this cause are in it as you know for the wrong reasons. As i have stated many times before, they are social outcast that never fit into and groups or social circles growing up. They were isolated and felt abanded. They find the white power movement so easily excepting so these people enter it only to fill that void they never recieved in life. Many join simply out of hatred and anger at a system that has betrayed them. Some join as a form of rebellion from that system, family and society. Others join simply out of boredom, as a hobby. These reason are fleeting and do not last. As the person will abandon this cause as those emotions abandon his or her hearts and minds. Or they find a new outlet to fill those needs. The only true emotion that should drive you is that of Love.

Love: Love is not fleeting, it is emotion that when truly felt fills you with a sense of pride, of warmth and a deep sense of postivity. A feeling that can only be defeated by yourself. Love does not show resentment, it does not despise or cause loathing. Love can however cause hate and hostility for those that betray it and put it in danger. Hate without love is the most dangerous however, not only for others but for yourself. Love of ones race must be solidified with and i dislike using terms so commonly associated with christian values, but it must be filled with hope and faith. Hope that our people will realise their worth and importance. Faith that our actions will not be in vain, that we will carry on and see a better future. For without these love will only lead to depression from fear of our destruction. But when fully realised, understood and embraced you will find that true power to change the world. One of the strongest emotions attached to Love is Honor.

Honor: It is a way of life, a code one lives his life behind. A code of conduct, of image and prestige. Ones honor will give him the courage to stand his ground, to defeat his foes and protect that which he loves. It is Honor that maintains our respectibility that seperates us from the animals without it. A man without honor is a man with nothing. Honor in the face of life and death have moved the wheels of time and have broke the bonds of fate. There is no more greater deed then that of Honor and no greater humiliation and loss then that of DisHonor. Honor is courage in the face of danger, honor is never betraying that which you love, honor is what seperates a man from a boy. It is also what causes the sometimes misguided but just as powerful emotion and action of Loyalty.

Loyalty: It is what keeps one going even upon the edge of defeat. It is Loyalty that makes a man stand when others run. It is Loyalty that maintains the family unit by remaining true to ones spouse. It is Loyalty which keeps what one loves alive, when others would not maintain it. Loyalty is what seperates Hero's from cowards. Loyalty to ones friends, to his family, to his people is one of the greatest Honors. Loyalty is what keeps a man going when everything else says quit. It is Loyalty that defys all others who say give up. Loyalty is looked upon as foolish by those that do not have it! Loyalty can be given freely but rarely earned, but one only earns Loyalty by showing Loyalty.

My Brothers and Sisters, Love, Honor and Loyalty are our keys to success. One without the other is a falsehood. Because one can never truly exist without the other. Love without honor and loyalty is pointless. Honor without love and loyalty is fruitless. Loyalty without honor and love is Lie. But once you fully understand, embrace and bond all together it becomes a driving force very few can challenge or sway. It is something that will carry you even past death and live on in hearts and minds of those who have effected. It is Immortal. Every great man or woman in history have had these things driving them as we need them if we will succeed. There is no threat, no weapon, no enemy we cannot defeat if with we have Love, Loyalty and Honor driving us.

Rev James Logsdon

rahoowa!

interview with
INVICTUS

Imperium

1. Greetings, you are well known to some of our readers, but for those who are new to your work, please introduce yourself.

Invictus is a metal/hatecore music band from Croatia/Europe. We are highly influenced by Creativity which can be seen through our songs and we propagate it through our music. We started with our work in 2009 and till now we released two full-length cds.

2. You said you are influenced by Creativity. Was it Creativity that encouraged you to start playing music, and is it the sole theme in your songs? Would you compare yourself with bands like Rahowa or Centurion?

Of course not, we would play music whether we are Creators or not. And, no, we sing about a lot of things in our songs, but we can say that we would never sing about something that is not in line with our beliefs. About Rahowa, I wouldn't compare our music to theirs, it's a different style, and we never tried to copy them. The big difference is Rahowa had Resistance Records behind them and we are mostly independent, and big difference is Burdi became traitor as well as Arno from Centurion. We are still loyal to our cause and will remain so.

3. Have you heard recent cd with rerecorded Rahowa songs, by some German band?

I've heard it, some German-called Men Against Time. I liked it, Swedish project it was well done, especially instrumental part. Regarding voice, I like original more, Burdi had a very specific voice which I like very much. Too bad he ended the way he did.

4. Recently you produced your second full length cd, what can you tell us about it and are you pleased with it?

Yes, our second cd is finally out. It's called "Mors tua vita mea", consists of eight great songs. We changed some things since the first cd, especially regarding vocals and drums. I am very pleased with our newer work and I think we finally found ourselves this time, this is what Invictus should sound like and what is most suitable for us. First cd was more like a testing phase (which went well, and I think we have good songs there), but now we tuned up and realized what kind of playing and singing best suits us. In comparison to first cd this one is more into hatecore and we dropped the growling type voice from before, now people can more easily understand what we sing about, LOL, which is very important for us.

5. As someone coming from Croatia, what is music scene there like?

Music scene? LOL There are 3 or 4 bands including us, with only Invictus and Wolfenhords (NSBM band) having their own cds produced. Not much to tell, basically there is no music scene here.

6. Recently a very famous WP band from USA, Bound For Glory, released a split cd with Japanese band Aggroknuckle, and they even announced live tour in Japan. What do you think of it?

Well, I don't really know what to think of it really. I would never do it, don't want anything to do with gooks. On one hand I understand the certain respect for the Japanese nation, but still.... As far as I've heard there is certain RAC scene in Japan (I know it sounds funny to us, yes), it's they are Japanese nationalists and Aggroknuckle one of the most popular bands. They even rerecorded some Skrewdriver songs. Now, I don't know what BFG have in mind, you would have to ask them. It is a bit weird, I must say, LOL.

7. Do you plan cooperation with some other bands, for certain compilation or split cds?

We are open to it, of course, but don't have any plans at the moment. Some of our songs were to be published on Soundtrack for revolution, volume 2 compilation. Not sure what actually happened with it, I think it never got released.

8. Tell us about general political situation in your country and nationalist/racist scene over there.

Well, not much to say really, same mess like in every European country. We have just entered EU, not sure what will happen in near future, but from what I've seen, nothing good. Recently there is a great pressure to promote homosexuality and other types of sodomy as equal to heterosexual marriage. There are even some talks about new asylum centres being built. This country is going down the drain and no one is revolting, it's sad. Government even forcefully changed the constitution last year to deny our citizens the opportunity to say NO to EU.

9. Any final words?

Thank you for this interview, hope those interested in our music will enjoy it, and to all of our readers, I wish they will be fruitful and multiply, hahaha.

W.A.U.
WOMAN FOR ARYAN UNITY

Hollier then thou

I know most of us have experienced the attitude and arrogance from those that think they are better than us. Whether it is because they are wealthier, smarter, from a better family, etc.. Or it might come from patriotism and pride in your nationality. In the American skinhead scene you see a large sense of arrogance coming from those bigger than others, intimidating and alienating those smaller. I can personally tell you not all from that aspect comes from genetics as steroids have become a major issue with many. It may come from a sheer misunderstandings and fallacy of the other as slander and lies that many so easily believe have twisted one person from the other. Having pride in something is perfectly fine, it is quite encouraged but when it turns into arrogance it only serves that persons selfish emotional need.

We Creators believe we are natures elite, but many take that the wrong way. Klassen refered to us as "natures elite" in regards to the White race as a whole and those who have awakened to the lies of christianity. His lessons were meant for us to open our eyes not to give us a sense of self entitlement. On the contrary it is our holy duty to do the opposite to bring that love and sense of pride to our people to awaken them, to aid them and to help them grow. If we walk around with the "holier then though" attitude we only will alienate those we seek to bring into the light.

I have personally experienced this attitude from those in the movement, even from those in our church. I have tattoos, many scars, my hands look like they been through a meat grinder, missing most of my teeth, so all in all i get this allot on the streets from upper class whites. Those that have lived a spoiled sheltered life, and as much as it may seem like it comes from them thinking they are better than me, if we are to get to the root of this alienation we must see the real reasons. It is the unknown that they fear, the intimidation, the insecurity, the jealousy of one that doesnt bow to the conventions and expectations of what society says we should be. Many take this too far, giving society a big F U and separating themselves from the outside world. This is very common and far more damaging then many believe. We must not avoid society, we can not crawl into our "white power" shell and stick to those like minded folk who except us and conform to isolation. We must dive head first into society, into the fire, into the looks of disgust from those who feel we are beneath them. Become social butterflys and reach those that do not know, that do not understand. If you see these looks smile back at them, say hello. Introduce yourself if the oppurtunity presents itself. Do not respond with anger and hostility, instead kill them with kindness. I dont know how many times i have done this and left those who feel they are better in shock and disbelief. It rocks the foundations of what they have taught themselves to believe and leaves them asking questions.

One of the other things we must never do is to do this to each other. I have seen a class type warfare amongst those in the white power movement. Alienating each other, i have done it myself many times. I have always had a personal dislike for those uppity suit and tie business types. Myself coming from a poor hard nose life, working construction and enjoying drinking and having a good time. It has made me look at those who come from money and put off that softer clean cut look and approach with contempt. Mainly, to be truthfull, it was something i didnt understand. The older i get the more i do understand and even though i still do not agree and can never adapt to that type i still will embrace that person as my brother. It is the difference of me and you avoiding and alienating that person for those differences that causes the problem. For treating that person bad just becuase we have a different approach and come from a different walk of life.

We Creators must realize it takes all types, we must reach all our White brothers and sisters with our message not just those who we can get along with. I am not telling you to be everyones friend, that would be contradictory to what i have taught in the past, and i am not telling a young skinhead to go recruit a business man, for that will not work. I am simply saying dont alienate those amongst our extended racial family simply for taking a different approach. Instead focus on perfecting your own.

Rev James Logsdon

Klassen's Teachings:

Eugenics and the Survival of the White Race

The Creativity Movement deems it extremely important that if we want the White Race of the future to be more healthy, happy and intelligent that we must also look to our genetic health. If we want healthier children (and adults) we must stop the breeding and proliferation of genetically diseased derelicts. We all know that like begets like, and scum begets scum. Now healthy, beautiful and intelligent parents may not always reproduce children that are exact replicas of themselves, but by the law of averages they are going to have children that are similar to themselves, some even superior, some not. Similarly, idiots, misfits, mental and physical cripples, the genetically diseased, are going to reproduce more of their tragic ilk to plague not only the present society, but also future generations.

Unfortunately, as I have pointed out in the WHITE MAN'S BIBLE (and also in NATURE'S ETERNAL RELIGION) present day society is so geared and structured that the inferior are encouraged to far outbreed the superior, and the mud races to far outbreed the White Race. The Jewish power establishment wants it that way, and does everything in its considerable power to make it happen. (See Chapters 26, 27, 28, and 41 of The WHITE MAN'S BIBLE). In past centuries (before welfare and subsidization became the monsters they are today) there was a natural curb on the proliferation of the inferior. Whereas they could breed, their proliferation was strictly limited by their inability to feed themselves. As a result the niggers of Africa, for instance, never increased their numbers over thousands of years. This degenerate black population of the African continent stabilized at the starvation level and stayed there. The ability (or inability) to produce food was the limiting curb. Until the advent of the White Man their numbers changed very little and for a huge continent fabulously rich in natural resources it supported a relatively small population. Furthermore, that population, by our standards lived continuously in dire poverty with the specter of starvation perpetually stalking the land.

The advancing technology of the White Race changed all that, both at home and abroad. With new inventions created by the genius of the White Man a single farmer could now feed 50 families whereas a few centuries ago he could feed perhaps two at most.

Now we are all proud of the genius of the White Man and the multitude of marvelous inventions his creative mind has produced. We are proud of such geniuses as Leonardo di Vinci, who was far ahead of his time; of Edison who dedicated most of his adult life to producing hundreds of inventions; of James Watt, who produced the first steam engine; of Henry Ford who revolutionized manufacturing techniques and put America on wheels; of Robert Fulton who built the first working steamboat; of Robert McCormick who produced the first horse drawn reaper and thereby tripled the productivity of the average grain farmer. We are proud of Daimler, Diesel, Marconi, Morse, Bell and hundred, yes, thousands of geniuses who have contributed tremendously to the advance of our civilization and culture. The one overriding observation about all these geniuses is that they were White-members of Nature's Elite the White Race.

As I have stated in the introductory pages of this book, the underlying goal of our four dimensional religion, CREATIVITY, is a Sound Mind in a Sound Body in a Sound Society in a Sound Environment. In order for us to live a happy, healthy and productive life, it is not enough to strive for physical health. In any case, even physical health is impossible if any of the other three factors is absent.

You cannot pursue health and happiness if your mental condition is deranged. You cannot stay healthy or happy for long if the society you live in is in turmoil and chaos. For instance, how long could a healthy intelligent White family survive if it lived in the middle of Harlem? Not long. It would be robbed, attacked and soon murdered by the unruly black animals surrounding it. Supposing such conditions spread nation wide until we had wall-to-wall

Imperium

niggers. How long could White families survive under such conditions? And finally, there is the environment. How can anyone successfully pursue Salubrious Living if our air, our water, and yes, the overwhelming proportion of our food is polluted with poisonous chemicals?

The answer is no one can survive under such conditions, much less live in peace, health and happiness unless and until all four of these basics of our religious creed are in order. In CREATIVITY we stress the TOTAL SOLUTION-the whole ball of wax. We do not waste our time fiddling with trivialities, or berating effects. We go after the basic causes, and then seek to correct the cause, not chase after effects.

In CREATIVITY, I believe we have the TOTAL PROGRAM, the FINAL SOLUTION, the ULTIMATE CREED. In this book we have so far fairly covered thoroughly three of the major aspects of our four dimensions. We have covered the conditions for mental health (a Sound Mind) the means of attaining and sustaining superior physical health (a Sound Body) and what we must do to maintain a clean and viable environment, although this last problem is treated much more thoroughly in The WHITE MAN'S BIBLE (Chapters 13, 14, and 15). In both NATURE'S ETERNAL RELIGION and The WHITE MAN'S BIBLE we deal extensively with the structuring and building of a Sound Society. So many chapters are devoted to this in both books that we will not even separate them here.

What we want to emphasize in this last chapter of this book is something very few books on health dare to mention at all-and that is Point No 14 of SALUBRIOUS LIVING, namely the subject of Eugenics. Without a conscious understanding of, and adherence to its laws; unless we are dedicated to the unflagging practice of its principles, everything else eventually breaks down and for the White Race ends up in a tragic catastrophe of gigantic dimensions.

What do we mean by Eugenics? Basically it means racial health. All species of Nature practice it instinctively. All species, whether it is a herd of buffalo, or deer, or caribou, or a flock of ducks, do basically two things to keep the genetics of the herd or the flock healthy: (a) There is a continuous culling out of the misfits in order to improve the genetic quality of the herd or the flock (survival of the fittest), and, (b) They do not interbreed with another similar species, no matter how closely related that species may be.

Let us examine the process of "culling the herd" first. Nature is continuously urging each species to upgrade itself so that it is better fitted to meet the competition in the fierce battle for survival. Nature does not necessarily view one species more desirable than another, whether it be a shark, or a cat, or a deer or an eagle. To Nature there are no favorites. Each is equipped with certain attributes, certain tools, certain advantages and disadvantages for its own survival and expansion. How well each creature uses these attributes is up to its own discretion in the fierce struggle for survival.

Nature is ruthless in the application of its laws. It is completely indifferent as to which individual survives, or which species survives. Nature punishes with extinction those species, which, although suitably equipped, were not vigorous enough, or too sluggish in the struggle for survival on the face of this planet. As we look back on geological and biological history of the past we find that such creatures as the dodo and the dinosaur are now extinct, as are millions of other species now imbedded in ancient rock as nothing more than fossils.

Therefore each species either shapes up or ships out, as the saying goes. Those species that are still around vigorously practice eugenics instinctively and are subject to numerous culling practices. For instance, in a herd of buffalo, a deformed calf will usually be butted to death by

other calves, or even adult buffalos. To the bleeding hearts of the present liberal generation this may seem cruel. But actually, the butting calves are doing the herd a big favor. By culling out the misfit they are preventing it from growing up and perpetuating its defective genes into the gene pool of the herd. They are preventing the proliferation of deformed and crippled buffalos in their herd of the future and thereby its degeneration and eventual extinction.

Helping this culling process are a number of predators such as wolves, coyotes or cougars that may be stalking the fringes of the herd. They, too, contribute immensely to the health of the herd and are directly involved not only in the survival of the predators, but also in the survival of the buffalo herd. By attacking and pulling down the slow, the sickly, the sluggish and the weak they are culling out the genetic undesirables and thereby keeping the herd viable and sound and more capable in meeting the challenge of survival.

Now we come to point (b) in the process of Eugenics, namely keeping the species pure. Just as Nature frowns on cripples and misfits and ruthlessly punishes them with extinction, so Nature also frowns on bastardization of the species, any species, whether animal, bird or human.

When I was a kid, I was brought up on a farm in Saskatchewan. A few hundreds yards below our barn was a slough of water, about a mile long, and I spent many happy summer days rafting on it. Now this slough happened to be a favorite nesting area for many species of wild ducks who flew north for the summer to breed and usher in the next generation. Among these I had the opportunity to observe many different species of ducks-pintail ducks, teal ducks, canvasback ducks, mallard ducks, mud hens, helldivers and others that I could not identify. There is one cogent lesson I learned from all these different species and it is this: Whereas they all belonged to the duck family each sub-species mated only with its own, pintails with pintails, canvasbacks with canvasbacks, teal with teal, etc. Never did they interbreed, never was there any miscegenation despite the fact they were all ducks and despite the fact that they all nested in the same pond. Nature hates bastards. Whereas domesticated animals (having too long been guided by, and interdependent on their human masters) have long lost their identity and the instincts of a pure species, the creatures of the wild have not and will faithfully abide by the laws of Nature. I repeat-Nature hates bastards. Nature frowns on miscegenation and ruthlessly relegates to the scrap heap of evolution those species which would arrogantly violate her laws.

We now come to the human species and focus particular attention on the White Race with whose welfare CREATIVITY is exclusively and solely concerned. After setting forth the goals and objectives of Creativity in the first chapter of the WHITE MAN'S BIBLE we lay down a hard and fast principle in the second chapter, namely we are concerned basically with the survival, expansion and advancement of the White Race. Everything we say, every opinion we express is through the eyes of the White Race. The White Race is the supreme yardstick by which we measure all things. Why? Because we ARE the White Race and Nature imposes upon us the same demands and the same laws as on every other creature and that is: LOOK TO THE SURVIVAL AND WELFARE OF YOUR OWN KIND.

Nature, however, has done more than that for the White Race. In fact, it is on the White Race that she has lavished her most generous gifts. On no other creature in all the billions of years life has existed on this earth has Nature so generously dispensed as much INTELLIGENCE, CREATIVITY and PRODUCTIVITY AS SHE HAS ON THE White Race in just the last instant of geologic time. No other creature has occupied such predominance, such exclusiveness, so much control over its own environment and the destiny of other creatures as has the White Race in modern times. Without doubt, in the White Race Nature has produced her highest creature, her Elite, with no even near rivals.

Imperium

As with all other creatures, Nature has clearly told us, the White Race, the following: "What you do with your gifts and talents is strictly up to you. Whether you survive or not as a species is strictly up to you also. Whether you squander or abuse these precious gifts I have given you, that, too, is up to you. But I can promise you this: If you don't use these unusual attributes and advantages for your own survival and upgrading, I will relegate you too to the scrap heap of evolution. It is up to you. I am completely indifferent whether you survive or not".

The tragic fact of history in this last quarter of the twentieth century is that the White Race is not using its precious gifts, its astounding advantages, its unique intelligence, for its own best interests. Whereas there is no creature in geologic history that we know of that ever was dumb enough to say to an inferior species: "Since you are weak, stupid and sluggish, we will subsidize you. Since you are having a hard time, we will hold back on our own species, we will divert our food, labor and talents from our kind to yours so that you can multiply and crowd us off the face of the earth. We will even go further. We are so insanely generous, we will mix our genes with yours to help upgrade yours, although this will mean our own extinction."

No, in this respect no creature has ever taken such a dumb stance as has the White Race. It may be the most creative, the most intelligent creature in technology, science, literature, arts and many other fields of endeavor that go to make up civilization but when it comes to looking to its own survival, its own upgrading of its species, keeping its own genetic health, to the recognition of its natural enemies in all these most vital aspects the White Race has most flagrantly flouted all of Nature's laws and is more stupid than the lowly mud hen I observed on our slough in Canada. And for this flagrant violation the White Race is beginning to pay dearly. If it does not soon change its course, Nature will exact its final punishment on the White Race-Extinction. This is as certain as the extinction of the dodo and the dinosaur and this process is crashing about our ears at an astounding speed, in fact, when we look at the multi-million year survival span of other species, the White Race might have one of the shortest tenures in biological history.

It is not my objective here to re-capitulate the basics of Eugenics. This I have already covered in The WHITE MAN'S BIBLE and need not be repeated here. The objective in this book is two fold: (a) to set forth a program for superb health and (b) to make each member of the White Race keenly conscious of the fact that a creed, a program and religion exist that serves the WHOLE man, the WHOLE society and the WHOLE environment in order that we may build a better world, a better society, a better race and a healthier, happier and more capable individual.

The rest of the creed you will find in our two basic books, NATURE'S ETERNAL RELIGION and The WHITE MAN'S BIBLE. Read them, study them and re-read them. Then go to work distribute them, spread the word and help build a better world. Help bring about the greatest blessing ever conceived for mankind in all its tumultuous history:

A SOUND MIND in a SOUND BODY in a SOUND SOCIETY in a SOUND ENVIRONMENT.
